

BODY PIERCING COURSE

Foundation Certificate

R 10 500-00

Who is it for?

The foundation course in body piercing is aimed at complete beginners with a keen interest in becoming a body piercing artist. You will not need any experience to get started.

This course can also be tailored for currently practicing body piercing artists wishing to convert from the blade body piercing technique to our specialised no bleed cannula body piercing technique.

This course is also available using utilising the blade piercing technique

About the course

This jargon free course is small and mighty, offering our students a first class introduction to body piercing.

We will provide you with a detailed insight to all aspects of the most popular piercing placements, how to pierce some one without making it bleed, history of body piercing, health, safety and hygiene, aftercare, anesthetics, basic first aid, and advice on starting up your own piercing studio.

The course emphasis is on practical training complimented by theory. You will carry out body piercings on clients while being supervised by your dedicated course tutor.

We believe practice makes perfect, and so you will be encouraged to perform as many piercings as possible. By keeping our course classes small (3 per course) you can use and improve your new skills very quickly throughout the duration of the course.

How long does the course take?

The course takes 3 days. This will include 2 days in working hands on experience and evenings reading and studying. The 3rd day will include assessments.

What's included?

All materials to enable you to successfully complete the foundation body piercing course, hands on training in a working environment, real clients to pierce, and foundation Certificate upon completion.

What will I get out of it?

- Ability to competently perform the most popular body piercings
- Utilise the no bleed cannula body piercing technique
- In-depth knowledge of piercing placements and types
- Health, safety and hygiene.
- Insight to the history of body piercing
- Body piercing aftercare
- Identifying workplace hazards
- Lifetime support
- Pass guarantee
- Service guarantee
- Foundation Certificate

When are the courses held?

Due to the size of our classes having no more than 3 students at any one time and a qualified teacher dedicated to taking body piercing courses, we are able to offer our courses on a weekly basis.
